COWBOY CAUSES STAMPEDE

Former Secretary of Commerce and  
Labor Receives Unanimous Nomina-  
tion Under Unexpected and Dramatic  
Circumstances—Convention Places  
Complete State Ticket in the Field.Syracuse, N. Y., Sept. 7.—Oscar S.  
Straus, former secretary of commerce  
and labor in the cabinet of President  
Roosevelt, was unanimously acclaimed  
the nominee for governor of the Pro-  
gressive party by a stamped convention.Mr. Straus' nomination came about  
under circumstances that were not  
only unexpected but dramatic. The  
former cabinet member, acting as the  
convention's permanent chairman, was  
about to entertain a motion from former  
Lieutenant Governor Timothy L.  
Woodruff to expedite the roll call on  
the names of State Chairman William  
H. Hotchkiss and Comptroller  
William A. Prendergast of New York  
when a delegate from New York  
county leaped to his chair and de-  
manded to be heard."It's Suspend Jack McGee," cried  
a voice from the gallery.Chairman Straus looked puzzled.  
McGee, who got his name in the In-  
dian country for riding a broncho into  
camp with suspenders used as reins,  
moved resolutely toward the platform.  
Chairman Straus looked with sur-  
prise on the man who with a flaming  
bandana swathed around his neck and  
his coat blazing with badges tossed  
his rough rider hat on the floor and  
demanded the right to make a nomina-  
tion.Delegates and spectators booed and  
jeered as he began to speak. There  
was a general laugh when he cried:

Speaks in Defiance of Jeers.

"I'll name a man, the mention of  
whose name will bring tears of sym-  
pathy to the eyes of almost every man  
and woman in the civilized land," but  
Suspend Jack only waved his arm  
in defiance of the jeers. He paused  
a moment and then cried:"I nominate the illustrious and hon-  
orable Oscar S. Straus."The delegates seemed stunned;  
then a few of them cheered. Mr.  
Straus gave an amused laugh at Sus-  
pender Jack; bowing before him Mc-  
Gee kept on with his speech and the  
first few faint cheers from the half  
dozen or more delegates gradually  
grew into a pandemonium that swept  
the convention hall from end to end.Standards were wrenched from their  
supports and delegates, yelling and  
cheering for Chairman Straus, paraded  
the aisles, turning the convention into  
a bedlam.Chairman Straus at first shook his  
head deprecatingly at the growing  
ovation. He turned to friends and  
remarked:

"This must not be, I cannot accept."

Chairman Hotchkiss left his seat  
among the delegates and rushed to  
the platform. Placing his hands on  
Mr. Straus' shoulder he said:"You must accept, you must accept;  
all the delegates are for you."Scores of delegates pressed toward  
the platform to urge Mr. Straus to  
make the decision. Then Mr. Hot-  
chkiss burst from the group that sur-  
rounded Mr. Straus and held up before  
the crush of excited delegates a sheet  
of yellow paper on which was written:  
"He accepts."

Another Demonstration Occurs.

Quickly the word was passed back  
through the hall and another demon-  
stration followed.Chairman Hotchkiss was allowed to  
act as chairman in place of Mr. Straus.  
The nomination of Mr. Hotchkiss for  
governor was withdrawn by John A.  
Kingsbury and Timothy Woodruff  
withdrew the name of Mr. Prender-  
gast. Then came a flood of speeches  
seconding the nomination of the for-  
mer minister to Turkey.When the convention had recovered  
and Mr. Straus had been chosen unan-  
imously he was called upon for a  
speech and tendered an ovation as he  
formally accepted the nomination.Few contests developed and where  
they did selections were made by ris-  
ing vote after the candidates had been  
invited to the platform where the de-  
legates could "look them over." The  
ticket as finally selected was:Governor—Oscar S. Straus, New  
York.Lieutenant Governor—Former State  
Senator Frederick M. Davenport,  
Onondaga.Associate Judge of Court of Appeals  
—Charles G. Alden, Buffalo, and George  
W. Kirchway, Columbia university.Secretary of State—Homer S. Call,  
Syracuse.State Comptroller—Horatio C. King,  
Brooklyn.Attorney General—John Palmieri,  
Brooklyn.State Treasurer—Ernest Cawcroft,  
Jamestown.Chicago, Sept. 7.—Rev. William  
White Wilson, fifty-five years old, for  
twenty-three years rector of St.  
Mark's Episcopal church, was instan-  
taneously killed by a street car. The crew  
of the car were arrested and will be  
held pending the outcome of the cor-  
oner's inquest.TRUE RELATION  
TO FELLOW MENPresident Addresses Deeper  
Waterways Convention.

DOES HE MEAN ROOSEVELT?

Taft Declares That No Individual  
Should Allow His Own Selfish Inter-  
ests or His Personal Ambition to  
Lead Him to Climb Into Power Over  
Some One Else.New London, Conn., Sept. 7.—From  
within the grass grown ramparts of  
old Fort Griswold, on Croton Heights,  
President Taft told the delegates to  
the Atlantic Deeper Waterways con-  
vention that no individual should al-  
low his own selfish interests, or his  
personal ambition, to lead him to  
climb into power over some one else.  
"We should not forget our true rela-  
tion to our fellow men," he said, "nor  
the obligations we owe to those who,  
as individuals, make up the body polit-  
ic."The president had been telling the  
story of the defense of Fort Griswold  
131 years ago and of the courage of  
those farmers who had defended the  
walls against the British under Bene-  
dict Arnold. He had spoken of Arnold,  
saying that no one who had studied  
the brilliant parts of the man, and of  
his ambitions, could help feeling re-  
gretful that love of self, self-absorp-  
tion and ambition for power, had led  
him into that path which made him  
the "greatest traitor of all times."Turning from the lessons of history  
the president took up the matter of  
deeper waterways, a movement which  
he favored, especially the proposed  
system of inner canals along the sea-  
board. He said that the Ohio river  
project will be worth all the money it  
costs. Of the Panama canal he said  
he saw nothing which suggests delay  
in sending our battleships through it  
a year hence. Said the president:

Resents Canal Bill Criticism.

"I signed the Panama canal bill as  
you know. If you were to read some  
of the strictures on that act of mine  
you would think that the executive  
and congress went around looking for  
a chance to violate a treaty and then  
violated a treaty just for the fun of  
it. On the matter whether there has  
been any violation of treaty rights I  
think it fair to examine the question  
up one side and down the other and  
hear arguments on each side before  
calling names, or even before siding  
against one's own country."President Taft came ashore with  
Mrs. Taft and several members of his  
party who had come over from New  
York on the Mayflower. Mr. Hilles,  
Mr. Sheldon, treasurer of the national  
Republican committee, and Charles F.  
Taft, brother of the president, did not  
come ashore. In answer to a question  
as to whether there had been a po-  
litical conference on board President  
Taft said that he had no statement to  
make.The president, with his ankle bound  
up, used a cane in walking from the  
boat landing to the automobile. A lit-  
tle later at a reception in the hotel,  
at which nearly a thousand persons  
shook hands, the president was seated  
in order to favor his ankle. While he  
spoke at Fort Griswold he supported  
himself with his cane.From the fort the presidential party  
was driven to the Griswold dock and  
then boarded the Mayflower, when  
weighed anchor and sailed for Bever-  
ly.

Directors of Panama-Pacific Exposi-  
tion Adopt Perfected Plan.San Francisco, Sept. 7.—The Pana-  
ma-Pacific international exposition,  
which will be held here in 1915 to  
celebrate the completion of the Pana-  
ma canal, will be ready on time. This  
was the assertion of its president,  
Charles C. Moore. After months spent  
in preliminaries the perfected plan  
has been adopted by the directors and  
orders have been given to go ahead  
immediately.All exhibit palaces must be complete  
as though ready for occupancy June  
25, 1914, nine months in advance of  
the date set for the opening, Feb. 20,  
1915. All contracts will be let on this  
basis.The exposition will occupy 625 acres  
on the northern shore of San Fran-  
cisco and have a water frontage of  
approximately two miles on the bay.

Minneapolis Flour Output.

Minneapolis, Sept. 7.—The mills of  
Minneapolis produced 15,708,075 bar-  
rels of flour in the crop year ending  
Aug. 31, a remarkable record in view  
of the scant wheat crop of last year  
in the Northwest, the total standing  
almost even with the production of  
the two preceding years, showing  
105,115 barrels less than in 1910-11  
and 367,040 less than in 1909-10. The  
increase over 1908-09 was 2,010,705  
barrels.

TAFT MEN LOSE CONTEST

Roosevelt Electors Remain on Ballot  
in Kansas.Topeka, Kan., Sept. 7.—The Roose-  
velt electors remained on the ballot  
off the Republican ballot in Kansas.Judge Walter H. Sanborn of the  
United States circuit court of appeals  
denied the injunction asked by the  
supporters of President Taft's candi-  
dacy to prohibit the names of the eight  
Roosevelt electors being placed on  
Republican ballots in the general elec-  
tion in November. The case was ar-  
gued Monday in Denver and the writ-  
ten decision of Judge Sanborn was re-  
ceived by Morton Albaugh, clerk of  
the United States circuit court here.AMERICAN TROOPS  
ENGAGE MEXICANSFive Rebels Reported Killed and  
One Wounded.Douglas, Ariz., Sept. 7.—Mexican  
rebels crossed the boundary and were  
engaged by United States soldiers on  
the Lang ranch, fifty miles east of  
Douglas, according to a report re-  
ceived here.Sixteen American troopers held back  
twenty-five rebels, killing five and  
wounding one of the Mexicans, it is  
reported.The rebels are believed to be of the  
command of Inez Salazar, whose men  
also engaged American soldiers below  
Huachita, N. M., farther to the east.

MEXICAN SITUATION BETTER

But Arms Will Be Sent to Americans  
South of Border.Washington, Sept. 7.—Just as Am-  
bassador Wilson, under instructions  
from the state department, based on  
appeals from plantation and mining  
interests, was making a strong de-  
mand upon the Mexican government  
for additional forces in Northern Mex-  
ico, to protect American interests, the  
state department's agents in the lat-  
ter quarter were reporting a consid-  
erable improvement in conditions.Discouraging news comes from the  
south of Mexico, however. The entire  
federal garrison at Ajuno was mas-  
sacred by rebels last Wednesday.The war department has decided to  
honor the requisition of the state de-  
partment for small arms for the Amer-  
ican citizens on the south side of the  
border.

North Dakota Progressives Hold State  
Convention.Fargo, N. D., Sept. 7.—Dr. C. C.  
Cregan, president of Fargo college,  
was nominated on the Progressive  
ticket as gubernatorial candidate at  
the session of the North Dakota state  
convention.Republican candidates for other  
state offices regularly nominated at  
the state primaries in June were re-  
nominated by the Progressives except  
in the instance of commissioner of  
agriculture and labor, which was left  
in the hands of the state central  
committee.Numbered among the delegates to  
the convention were twenty-five wom-  
en, who showed great interest and  
took an active part in all proceedings.

DISAPPOINTMENT FOR MANY.

Nothing For the Fellows Who Look  
For a "Rakeoff" Every Four Years.  
Rules of the House Need Further  
Reforming—Senate Repartee Over  
Campaign Money.

By ARTHUR W. DUNN.

Washington, Sept. 7.—[Special.]—The  
fellows who reap every four years for  
the purpose of getting a good "rake-  
off" in the presidential campaigns are  
very much disappointed. With all the  
clamor against immense campaign col-  
lections and expenditures, with attacks  
upon corporations as contributors, with  
publicity laws and every means of dis-  
couraging collections, it is said that the  
coffers of the different parties are con-  
tinually empty. There is no money for  
all kinds of lavish expenditures, for  
grifters and heelers and for gifts to  
the faithful.

Cut Off a Graft Bill.

Originally the river and harbor im-  
provements of the country were provid-  
ed for in separate measures. Then  
they were lumped, and hence the great  
river and harbor bills of the present  
time. The same was true of public  
buildings and claims. The omnibus  
method has supplanted the single bill  
method, and everybody gets his "bit."  
But the omnibus fish hatchery bill was  
defeated in the last session, perhaps  
because it was not extensive enough.  
Now, perhaps, there should be half a  
dozen fish hatcheries in this country,  
and yet nearly every state already has  
one and some states two or three.The last bill proposed that hatcheries  
should be established in Alabama,  
Georgia, Washington, North Carolina,  
Oklahoma, Texas, Nebraska, Oregon,  
Indiana, Arkansas and Tennessee at  
an original cost of \$25,000 each. Min-  
ority Leader Mann developed the fact  
that these hatcheries were to be located  
in districts represented by the men on  
the committee reporting the bill. This  
caused so much amusement that the  
bill was laughed out of the house. The  
absurdity of it killed the bill when the  
statement was made.

More Reform Needed.

For two long sessions certain men  
who wanted very much to pass a bill  
providing for more restrictive immi-  
gration laws labored under the new  
reform rules of the house to get the  
bill considered and were unable to do  
so. Now they say these rules need  
still further reforming. The fact is  
that many members would have been  
compelled to vote for that immigration  
bill if it had reached a voting stage,  
but they took particular pains to see  
that it should not come to a vote. The  
same method of dodging prevailed in  
the Democratic house as in the Repub-  
lican house. In former times Uncle  
Joe Cannon stood in the breach. This  
time the committee on rules performed  
that service.

Senate Repartee.

During a discussion of campaign  
money in the senate Senator Penrose  
asserted that the "enormous and un-  
precedented" campaign fund of \$3,000-  
000 was raised to prevent the nomina-  
tion of Taft at Chicago. Senator Bor-  
ah, who served with Penrose on the  
national committee during that memo-  
rable contest, asked:"I suppose the only thing that pre-  
vented the campaign fund from hav-  
ing effect was the national commit-  
tee?""The national committee," retorted  
Penrose, "exercised every care possi-  
ble to restrict and restrain the efforts  
to purchase colored Taft delegates at  
\$5,000 a head.""Does the senator know that the na-  
tional committee took jurisdiction of  
that subject?" asked Borah."The national committee," said Pen-  
rose, "spent many anxious moments  
after some of those gentlemen had  
wandered off the reservation.""I take it," said Borah, "that the  
men who wandered off the reservation  
in order to raise the price would not  
have very much manhood to appeal to  
in order to get them back.""There is a certain kind of political  
etiquette that exists in these matters,"  
said Penrose. "It seemed to be para-  
mount in this case, and they did come  
back."

Rebuked by Reed.

This talk of buying and rebuying  
negro delegates at Chicago caused the  
senate to laugh. It was quite funny  
until Senator Reed pointed out that no  
man could be elected president unless  
nominated by a national convention,  
and yet here were an admission and  
jesting talk about the buying of de-  
legates to nominate a candidate for president  
of one of the parties and the possi-  
bility of electing such a man whose  
nomination had been corruptly pro-  
cured. Reed said it was shameful, dis-  
graceful and not a subject of laughter  
and jeers.

Overman Dropped a Word.

For many years nearly every pension  
bill provided for the pension for service  
during the war of the "rebellion." Then  
Senator Overman of North Carolina  
came to the senate and was placed on  
the pension committee. "Let's drop  
out that word in these bills, gentle-  
men," said Overman. And they all  
agreed that it might just as well be.

Governor Wilson May Take  
Part in Senatorial Fight.

WILSON MAY OPPOSE SMITH

Indicates He Likely Will Take Part  
in Senatorial Fight.Seagirt, N. J., Sept. 7.—Governor  
Woodrow Wilson intimated that he  
probably would take part in the sena-  
torial fight in New Jersey, in which  
former United States Senator James  
Smith, Jr., is again a candidate. Two  
years ago he spoke throughout the  
state in opposition to Mr. Smith.In announcing a list of Western  
speaking engagements the governor  
left only three open dates between  
now and the New Jersey primaries,  
Sept. 24.His attention was called to the fact  
that if he intended to participate in  
the senatorial fight he would have  
only these three days.

"That's enough," he said.

POLICE INSPECTOR  
IMPLICATES WALDODeposed Officer Tells of Orders  
Regarding Resorts.New York, Sept. 7.—Whether Police  
Commissioner Waldo gave general in-  
structions to suppress disorderly  
houses, and private oral orders to al-  
low them to run as long as conditions  
of "outward decency" were observed,  
became the question at issue when  
Cornelius G. Hayes, suspended in-  
spector, was placed on trial before  
Deputy Police Commissioner Douglas  
I. McKay on the charge of making a  
false statement in regard to his po-  
lice duties.Thomas D. Thacher, Hayes' counsel,  
virtually transformed the trial into a  
probe of the police department and an  
arrangement of the policy of Mayor  
Gaynor. The attorney grilled Com-  
missioner Waldo in an effort to show  
that outward decency was the crite-  
rion by which the mayor wished the  
question of vice suppression to be de-  
termined and then put Hayes on the  
stand to prove that the commissioner  
had given the inspector oral orders in  
pursuance of this policy and had not  
countermanded them until they had  
become public.Hayes emphatically denied that he  
had made a false statement when he  
told the commissioner the latter had  
ordered him not to make raids on dis-  
orderly houses except on the commis-  
sioner's instructions.

Thousand Feet.London, Sept. 7.—Captain Patrick  
Hamilton and Lieutenant A. W. Stuart  
of the royal flying corps of the British  
army fell 1,000 feet and were instantly  
killed.As aeronautical participants in the  
army maneuvers in progress about  
Gravelly the two officers had made a  
successful monoplane flight together  
and were descending when they ran  
into a gale which buffeted them so  
violently that the monoplane broke in  
two in midair.With the wreckage of their machine  
the two aviators fell like lead and  
were mangled almost beyond recogni-  
tion.

cis E. McGovern denied that he would

according to an interview printed by  
the Evening Wisconsin. At the same  
time the governor refused to discuss  
the political situation any further.Governor McGovern would not com-

Taft have said that unless McGovern  
throws his support to the president  
that a Taft candidate for governor  
will be placed on the ballot by peti-  
tion.

COLONEL IN NORTH DAKOTA

Presidential Aspirant Speaks at Sev-  
eral Points and Says if a Man Has  
to Repudiate His Party's Platform  
It is High Time to Get a New Party  
or That Party Get a Radical Change  
of Heart.Jamestown, N. D., Sept. 7.—The vot-  
ers of the country were divided into  
two classes by Colonel Roosevelt. They  
were those with and those against  
the Progressive party. The man against  
it, however sincerely he may think he  
is progressive in politics, he said, "is the  
ally of Wall street, the ally of privilege,  
the ally of bossism."Coming into North Dakota, which  
Senator La Follette carried in the pri-  
maries preceding the Republican na-  
tional convention, Colonel Roosevelt  
made a particular effort to win over  
supporters of Progressive principles  
from the Republican and Democratic  
candidates.He criticized Woodrow Wilson for  
his stand in regard to the Progressive  
proposal for an interstate industrial  
commission to regulate large corpora-  
tions; he appealed to farmers of the  
state to stand with the new party on  
the tariff issue. In all of his speeches  
he drew the line sharply between the  
supporters on the Progressive ticket  
and all others.The colonel was whirled across  
North Dakota by special train to keep  
pace with a relentless schedule. He  
made half a dozen speeches. He  
stopped for an hour in Grand Forks,  
put in most of the afternoon in Fargo  
and made a brief address in Jamestown.  
He also spoke to crowds which met  
him at tiny stations along the way.  
The colonel reminded his hearers  
that he was a citizen of North Da-  
kota in former years and said he had  
come to speak for the party "which is  
trying to put into effect the principles  
that were ground into me here."

Talks to State Convention.

In Fargo Colonel Roosevelt spoke  
first to a large crowd in Island park.  
His audience was composed largely of  
farmers which had come from the  
surrounding section to hear him. The  
Progressive state convention was in  
session in Fargo, but when the colonel  
arrived the delegates went to the  
park, although he had agreed to ad-  
dress the convention later. When at last  
he reached the convention hall he found  
it almost empty, but close upon his  
heels the delegates trooped in to hear  
him again.Colonel Roosevelt told 2,000 people  
of Grand Forks and vicinity that "the  
man or the party we can't get along  
with is that one which says what his  
or its principles are, and then says  
what he or it doesn't really mean. If  
a man has to repudiate his party's  
platform then it is high time that he  
get a new party or that party get a  
radical change of heart."In his address in Island park, Fargo,  
the colonel emphasized that "if a man  
is not with us he is against us, and if  
he is against us he is siding with the  
reactionaries." He said he then was  
the ally of Wall street, of privilege  
and of bossism in politics. In his  
speech he again attacked Governor  
Wilson on his opposition to a federal  
commission to regulate monopolies.To the delegates to the state Pro-  
gressive convention in Fargo, Mr.  
Roosevelt said Jacob Schiff hopes to  
beat the Progressives with the Demo-  
cratic party so the old parties "will  
come back to the same old seesaw,  
the two parties nominally against one  
another, each under the control of  
privilege, one coming up, one going  
down. Mr. Schiff and Wall street  
want to stand in the middle and teeter  
the seesaw."

MINERS NOT YET RESCUED

Air Pipe Brings No Sound From Im-  
prisoned Biwabik Men.Duluth, Sept. 7.—The three miners  
imprisoned in the flooded Ruddy mine  
in Biwabik since Wednesday have not  
been rescued and little hope is enter-  
tained that any of them is alive.The rescuers are working desper-  
ately to reach them and considerable  
impression has been made on the  
water. An air pipe was driven into  
the workings into which it was sup-  
posed two of the men had escaped,  
but no sound to indicate that the men  
are alive has been heard.It is feared that they have been  
asphyxiated, as they were supposed  
to be blasting at the time the cloud-  
burst filled the shaft.

BULL MOOSE WAIVE RIGHTS

Will Place California Electors on Bal-  
lot by Petition.Los Angeles, Sept. 7.—Announce-  
ment was made by Meyer Lissner,  
chairman of the Republican state com-  
mittee, that the Progressives, who  
won control of the state convention  
in Tuesday's primary, would waive  
their right to nominate electors who  
the convention meets on Sept. 24 and  
would place the Roosevelt electors on  
the ballot by petition. Under this plan  
neither the Roosevelt nor the Taft  
electors will go before the people un-  
der the party designation of Repub-  
lican.

CHOOSE STRAUS

New York Progressives Nominate Him for Governor.

## COWBOY CAUSES STAMPEDE

Former Secretary of Commerce and Labor Receives Unanimous Nomination Under Unexpected and Dramatic Circumstances—Convention Places Complete State Ticket in the Field.

Syracuse, N. Y., Sept. 7.—Oscar S. Straus, former secretary of commerce and labor in the cabinet of President Roosevelt, was unanimously acclaimed the nominee for governor of the Progressive party by a stampeded convention.

Mr. Straus' nomination came about under circumstances that were not only unexpected but dramatic. The former cabinet member, acting as the convention's permanent chairman, was about to entertain a motion from former Lieutenant Governor Timothy L. Woodruff to expedite the roll call on the names of State Chairman William H. Hotchkiss and Comptroller William A. Prendergast of New York when a delegate from New York county leaped to his chair and demanded to be heard.

"It's Suspend Jack McGee," cried a voice from the gallery.

Chairman Straus looked puzzled. McGee, who got his name in the Indian country for riding a broncho into camp with suspenders used as reins, moved resolutely toward the platform.

Chairman Straus looked with surprise on the man who with a flaming bandana swathed around his neck and his coat blazing with badges tossed his rough rider hat on the floor and demanded the right to make a nomination.

Delegates and spectators booed and jeered as he began to speak. There was a general laugh when he cried:

Speaks in Defense of Jeers.

"I'll name a man, the mention of whose name will bring tears of sympathy to the eyes of almost every man and woman in the civilized land," but Suspend Jack only waved his arm in defiance of the jeers. He paused a moment and then cried:

"I nominate the illustrious and honorable Oscar S. Straus."

The delegates seemed stunned; then a few of them cheered. Mr. Straus gave an amused laugh at Suspend Jack; bowing before him McGee kept on with his speech and the first few faint cheers from the half dozen or more delegates gradually grew into a pandemonium that swept the convention hall from end to end.

Standards were wrenched from their supports and delegates, yelling and cheering for Chairman Straus, paraded the aisles, turning the convention into a bedlam.

Chairman Straus at first shook his head deprecatingly at the growing ovation. He turned to friends and remarked:

"This must not be, I cannot accept."

Chairman Hotchkiss left his seat among the delegates and rushed to the platform. Placing his hands on Mr. Straus' shoulder he said:

"You must accept, you must accept; all the delegates are for you."

Scores of delegates pressed toward the platform to urge Mr. Straus to make the decision. Then Mr. Hotchkiss burst from the group that surrounded Mr. Straus and held up before the crush of excited delegates a sheet of yellow paper on which was written:

"He accepts."

Another Demonstration Occurs.

Quickly the word was passed back through the hall and another demonstration followed.

Chairman Hotchkiss was allowed to act as chairman in place of Mr. Straus. The nomination of Mr. Hotchkiss for governor was withdrawn by John A. Kingsbury and Timothy Woodruff withdrew the name of Mr. Prendergast. Then came a flood of speeches seconding the nomination of the former minister to Turkey.

When the convention had recovered and Mr. Straus had been chosen unanimously he was called upon for a speech and tendered an ovation as he formally accepted the nomination.

Few contests developed and where they did selections were made by rising vote after the candidates had been invited to the platform where the delegates could "look them over." The ticket as finally selected was:

Governor—Oscar S. Straus, New York.

Lieutenant Governor—Former State Senator Frederick M. Davenport, Oneida.

Associate Judge of Court of Appeals—Carlos G. Alden, Buffalo, and George W. Kirchway, Columbia university.

Secretary of State—Homer S. Call, Syracuse.

State Comptroller—Horatio C. King, Brooklyn.

Attorney General—John Palmieri, Brooklyn.

State Treasurer—Ernest Cawcroft, Jamestown.

Chief Selector Killed by Car.

Chicago, Sept. 7.—Rev. William White Wilson, fifty-five years old, for twenty-three years rector of St. Mark's Episcopal church, was instantly killed by a street car. The crew of the car were arrested and will be held pending the outcome of the coroner's inquest.

## TAFT MEN LOSE CONTEST

Roosevelt Electors Remain on Ballot in Kansas.

Topeka, Kan., Sept. 7.—The Roosevelt presidential electors won another round in the legal battle to get them off the Republican ballot in Kansas.

Judge Walter H. Sanborn of the United States circuit court of appeals denied the injunction asked by the supporters of President Taft's candidacy to prohibit the names of the eight Roosevelt electors being placed on Republican ballots in the general election in November. The case was argued Monday in Denver and the written decision of Judge Sanborn was received by Morton Albaugh, clerk of the United States circuit court here.

AMERICAN TROOPS  
ENGAGE MEXICANS

Five Rebels Reported Killed and One Wounded.

Douglas, Ariz., Sept. 7.—Mexican rebels crossed the boundary and were engaged by United States soldiers on the Lang ranch, fifty miles east of Douglas, according to a report received here.

Sixteen American troopers held back twenty-five rebels, killing five and wounding one of the Mexicans, it is reported.

The rebels are believed to be of the command of Inez Salazar, whose men also engaged American soldiers below Huachita, N. M., farther to the east.

## MEXICAN SITUATION BETTER

But Arms Will Be Sent to Americans South of Border.

Washington, Sept. 7.—Just as Ambassador Wilson, under instructions from the state department, based on appeals from plantation and mining interests, was making a strong demand upon the Mexican government for additional forces in Northern Mexico, to protect American interests, the state department's agents in the latter quarter were reporting a considerable improvement in conditions.

Discouraging news comes from the south of Mexico, however. The entire federal garrison at Ajuno was massacred by rebels last Wednesday. The war department has decided to honor the requisition of the state department for small arms for the American citizens on the south side of the border.

## WOMEN TAKE ACTIVE PART

North Dakota Progressives Hold State Convention.

Fargo, N. D., Sept. 7.—Dr. C. C. Cregan, president of Fargo college, was nominated on the Progressive ticket as gubernatorial candidate at the session of the North Dakota state convention.

Republican candidates for other state offices regularly nominated at the state primaries in June were renominated by the Progressives except in the instance of commissioner of agriculture and labor, which was left in the hands of the state central committee.

Numbered among the delegates to the convention were twenty-five women, who showed great interest and took an active part in all proceedings.

## Presbyterian Divine Dead.

Philadelphia, Sept. 7.—Rev. Richard Sill Holmes of this city, a prominent member of the Presbyterian ministry and since 1904 an editor of denominational publications, died at his home here from apoplexy. Dr. Holmes was the author of three novels, "The Maid of Honor," "The Victor" and "The Outcome." He was born in Brooklyn July 6, 1842.

THE POLITICAL  
FUNDS ARE SLIM

No Fat Bank Rolls In This Year's Campaign.

## DISAPPOINTMENT FOR MANY.

Nothing For the Fellows Who Look For a "Rakeoff" Every Four Years. Rules of the House Need Further Reforming—Senate Repartee Over Campaign Money.

By ARTHUR W. DUNN.

Washington, Sept. 7.—[Special.]—The fellows who reap every four years for the purpose of getting a good "rake-off" in the presidential campaigns are very much disappointed. With all the clamor against immense campaign collections and expenditures, with attacks upon corporations as contributors, with publicity laws and every means of discouraging collections, it is said that the coffers of the different parties are continually empty. There is no money for all kinds of lavish expenditures, for grafters and heeleders and for gifts to the faithful.

## Cut Off a Graft Bill.

Originally the river and harbor improvements of the country were provided for in separate measures. Then they were lumped, and hence the great river and harbor bills of the present time. The same was true of public buildings and claims. The omnibus method has supplanted the single bill method, and everybody gets his "bit." But the omnibus fish hatchery bill was defeated in the last session, perhaps because it was not extensive enough. Now, perhaps, there should be half a dozen fish hatcheries in this country, and yet nearly every state already has one and some states two or three.

The last bill proposed that hatcheries should be established in Alabama, Georgia, Washington, North Carolina, Oklahoma, Texas, Nebraska, Oregon, Indiana, Arkansas and Tennessee at an original cost of \$25,000 each. Minority Leader Mann developed the fact that these hatcheries were to be located in districts represented by the men on the committee reporting the bill. This caused so much amusement that the bill was laughed out of the house. The absurdity of it killed the bill when the statement was made.

## More Reform Needed.

For two long sessions certain men who wanted very much to pass a bill providing for more restrictive immigration laws labored under the new reform rules of the house to get the bill considered and were unable to do so. Now they say these rules need still further reforming. The fact is that many members would have been compelled to vote for that immigration bill if it had reached a voting stage, but they took particular pains to see that it should not come to a vote. The same method of dodging prevailed in the Democratic house as in the Republican house. In former times Uncle Joe Cannon stood in the breach. This time the committee on rules performed that service.

## Senate Repartee.

During a discussion of campaign money in the senate Senator Penrose asserted that the "enormous and unprecedented" campaign fund of \$3,000,000 was raised to prevent the nomination of Taft at Chicago. Senator Borah, who served with Penrose on the national committee during that memorable contest, asked:

"I suppose the only thing that prevented the campaign fund from having effect was the national committee?"

"The national committee," retorted Penrose, "exercised every care possible to restrict and restrain the efforts to purchase colored Taft delegates at \$5,000 a head."

"Does the senator know that the national committee took jurisdiction of that subject?" asked Borah.

"The national committee," said Penrose, "spent many anxious moments after some of those gentlemen had wandered off the reservation."

"I take it," said Borah, "that the men who wandered off the reservation in order to raise the price would not have very much manhood to appeal to in order to get them back."

"There is a certain kind of political etiquette that exists in these matters," said Penrose. "It seemed to be paramount in this case, and they did come back."

## Rebuked by Reed.

This talk of buying and rebuying negro delegates at Chicago caused the senate to laugh. It was quite funny until Senator Reed pointed out that no man could be elected president unless nominated by a national convention, and yet here were an admission and jesting talk about the buying of delegates to nominate a candidate for president of one of the parties and the possibility of electing such a man whose nomination had been carefully procured. Reed said it was shameful, disgraceful and not a subject of laughter and jeers.

## Overman Dropped a Word.

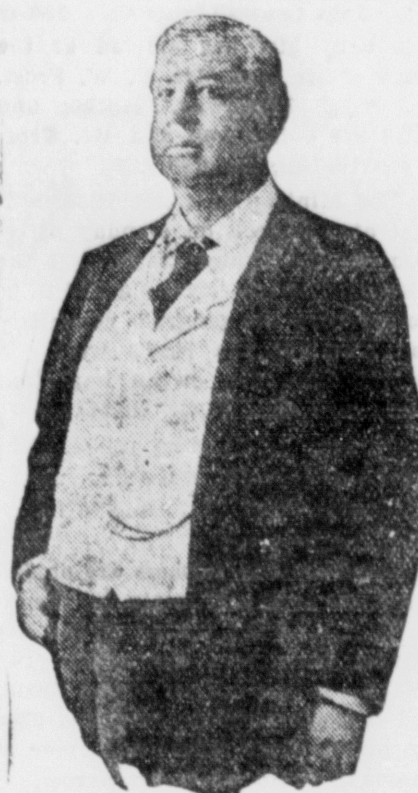

For many years nearly every pension bill provided for the pension for service during the war of the "rebellion." Then Senator Overman of North Carolina came to the senate and was placed on the pension committee. "Let's drop out that word in these bills, gentlemen," said Overman. And they all agreed that it might just as well be.

## JAMES SMITH, JR.

Governor Wilson May Take Part in Senatorial Fight.

## WILSON MAY OPPOSE SMITH

Indicates He Likely Will Take Part in Senatorial Fight.

Seagirt, N. J., Sept. 7.—Governor Woodrow Wilson intimated that he probably would take part in the senatorial fight in New Jersey, in which former United States Senator James Smith, Jr., is again a candidate. Two years ago he spoke throughout the state in opposition to Mr. Smith.

In announcing a list of Western speaking engagements the governor left only three open dates between now and the New Jersey primaries, Sept. 24.

His attention was called to the fact that if he intended to participate in the senatorial fight he would have only these three days.

"That's enough," he said.

POLICE INSPECTOR  
IMPLICATES WALDO

Deposed Officer Tells of Orders Regarding Resorts.

New York, Sept. 7.—Whether Police Commissioner Waldo gave general instructions to suppress disorderly houses, and private oral orders to allow them to run as long as conditions of "outward decency" were observed, became the question at issue when Cornelius G. Hayes, suspended inspector, was placed on trial before Deputy Police Commissioner Douglas I. McKay on the charge of making a false statement in regard to his police duties.

Thomas D. Thacher, Hayes' counsel, virtually transformed the trial into a probe of the police department and an arraignment of the policy of Mayor Gaynor. The attorney grilled Commissioner Waldo in an effort to show that outward decency was the criterion by which the mayor wished the question of vice suppression to be determined and then put Hayes on the stand to prove that the commissioner had given the inspector oral orders in pursuance of this policy and had not countermanded them until they had become public.

Hayes emphatically denied that he had made a false statement when he told the commissioner the latter had ordered him not to make raids on disorderly houses except on the commissioner's instructions.

## AVIATORS BADLY MANGLED

Two British Army Officers Fall One Thousand Feet.

London, Sept. 7.—Captain Patrick Hamilton and Lieutenant A. W. Stuart of the royal flying corps of the British army fell 1,000 feet and were instantly killed.

As aeronautical participants in the army maneuvers in progress about Gravelly the two officers had made a successful monoplane flight together and were descending when they ran into a gale which buffeted them so violently that the monoplane broke in two in midair.

With the wreckage of their machine the two aviators fell like lead and were mangled almost beyond recognition.

## DENIES SUPPORTING TAFT

Wisconsin Governor May Be Opposed by New Candidate.

Milwaukee, Sept. 7.—Governor Francis E. McGovern denied that he would support President Taft for re-election, according to an interview printed by the Evening Wisconsin. At the same time the governor refused to discuss the political situation any further.

Governor McGovern would not commit himself as to whom he would support.

Leading supporters of President Taft have said that unless McGovern throws his support to the president that a Taft candidate for governor will be placed on the ballot by petition.

Roosevelt Classes Them for and Against Progressive Party.

## COLONEL IN NORTH DAKOTA

Presidential Aspirant Speaks at Several Points and Says if a Man Has to Repudiate His Party's Platform It is High Time to Get a New Party or That Party Get a Radical Change of Heart.

Jamestown, N. D., Sept. 7.—The voters of the country were divided into two classes by Colonel Roosevelt. They were those with and those against the Progressive party. The man against it, however sincerely he may think he is progressive in politics, he said, "is the ally of Wall street, the ally of privilege, the ally of bossism."

Coming into North Dakota, which Senator La Follette carried in the primaries preceding the Republican national convention, Colonel Roosevelt made a particular effort to win over supporters of Progressive principles from the Republican and Democratic candidates.

He criticized Woodrow Wilson for his stand in regard to the Progressive proposal for an interstate industrial commission to regulate large corporations; he appealed to farmers of the state to stand with the new party on the tariff issue. In all of his speeches he drew the line sharply between the supporters of the Progressive ticket and all others.

The colonel was whirled across North Dakota by special train to keep pace with a relentless schedule. He made half a dozen speeches. He stopped for an hour in Grand Forks, put in most of the afternoon in Fargo and made a brief address in Jamestown. He also spoke to crowds which met him at tiny stations along the way. The colonel reminded his hearers that he was a citizen of North Dakota in former years and said he had come to speak for the party "which is trying to put into effect the principles that were ground into me here."

## Talks to State Convention.

In Fargo Colonel Roosevelt spoke first to a large crowd in Island park. His audience was composed largely of farmers which had come from the surrounding section to hear him. The Progressive state convention was in session in Fargo, but when the colonel arrived the delegates went to the park, although he had agreed to address the convention later. When at last he reached the convention hall he found it almost empty, but close upon his heels the delegates trooped in to hear him again.

Colonel Roosevelt told 2,000 people of Grand Forks and vicinity that "the man or the party we can't get along with is that one which says what his or its principles are, and then says what he or it doesn't really mean. If a man has to repudiate his party's platform then it is high time that he get a new party or that party get a radical change of heart."

In his address in Island park, Fargo, the colonel emphasized that "if a man is not with us he is against us, and if he is against us he is siding with the reactionaries." He said he then was the ally of Wall street, of privilege and of bossism in politics. In his speech he again attacked Governor Wilson on his opposition to a federal commission to regulate monopolies.

To the delegates to the state Progressive convention in Fargo, Mr. Roosevelt said Jacob Schiff hopes to beat the Progressives with the Democratic party so the old parties "will come back to the same old seesaw, the two parties nominally against one another, each under the control of privilege, one coming up, one going down. Mr. Schiff and Wall street want to stand in the middle and teeter the seesaw."

## MINERS NOT YET RESCUED

Air Pipe Brings No Sound From Imprisoned Biwabik Men.

Duluth, Sept. 7.—The three miners imprisoned in the flooded Ruddy mine in Biwabik since Wednesday have not been rescued and little hope is entertained that any of them is alive.

The rescuers are working desperately to reach them and considerable impression has been made on the water. An air pipe was driven into the workings into which it was supposed two of the men had escaped, but no sound to indicate that the men are alive has been heard.

It is feared that they have been asphyxiated, as they were supposed to be blasting at the time the cloud-burst filled the shaft.

## BULL MOOSE WAIVE RIGHTS

Will Place California Electors on Ballot by Petition.

Los Angeles, Sept. 7.—Announcement was made by Meyer Lissner, chairman of the Republican state committee, that the Progressives, who won control of the state convention in Tuesday's primary, would waive their right to nominate electors when the convention meets on Sept. 24 and would place the Roosevelt electors on the ballot by petition. Under this plan neither the Roosevelt nor the Taft electors will go before the people under the party designation of Republicans.

## Deafness Cannot be Cured

We will give One Hundred Dollars for  
any case of Deafness (caused by ear  
local applications, as they cannot  
reach the diseased portion of the ear.  
There is only one way to cure deafness,  
and that is by remedial measures.  
Deafness is caused by an inflamed con-  
dition of the mucous lining of the Eustachian Tube. When this tube is in-  
flamed you have a rumbling sound or im-  
perfect hearing, and when it is entire-  
ly closed, deafness is the result, and un-  
less the inflammation can be taken out  
and the tube restored to its normal con-  
dition, hearing will be destroyed for-  
ever; nine cases out of ten are caused  
by Catarrh, which is nothing but an in-  
flamed condition of the mucous sur-  
faces.

## New Type of Car Fender.

J. R. Maguire of Philadelphia has  
patented a street car fender which he  
claims will be efficacious under any  
and all conditions. As described by  
him, the device is a combination of the  
"dropping lever" and the projecting  
type fender. A movable bar, hanging  
from the front of the fender and ex-  
tending out several inches, is forced  
back when any object strikes it, and  
by means of a chain thus pulled on a  
lever the fender proper drops flush  
with the track. The motorman may  
also operate the device from his place  
in the car.

Deafness is caused by an inflamed con-  
dition of the mucous lining of the Eusta-  
chian Tube. When this tube is in-  
flamed you have a rumbling sound or im-  
perfect hearing, and when it is entire-  
ly closed, deafness is the result, and un-  
less the inflammation can be taken out  
and this tube restored to its normal con-  
dition, hearing will be destroyed. For  
ever, nine cases out of ten are caused  
by Catarrh, which is nothing but an in-  
flamed condition of the mucous sur-  
faces (tarrh) that cannot be cured by Hall's  
Catarrh Cure. Send for circulars, free.

## New Type of Car Fender.

J. R. Maguire of Philadelphia has  
patented a street car fender which he  
claims will be efficacious under any  
and all conditions. As described by  
him, the device is a combination of the  
"dropping lever" and the projecting  
type fender. A movable bar, hanging  
from the front of the fender and ex-  
tending out several inches, is forced  
back when any object strikes it, and  
by means of a chain thus pulled on a  
lever the fender proper drops flush  
with the track. The motorman may  
also operate the device from his place  
in the car.

An Artist's Feat.  
One of the most remarkable and  
most artistic of twenty-four hours' re-  
cords stands to the credit of Sir Edwin  
Landseer, who had promised a picture  
for the spring exhibition of the Royal  
British Institution in 1845. On the day  
before the opening he was found  
standing in front of an untouched can-  
vas. "I shall send that to the institu-  
tion tonight, a finished picture," he de-  
clared to the astonished messenger  
who had been sent by the hanging  
committee to see if the promised pic-  
ture was ready, "and have consequen-  
tly given orders not to be disturbed." True  
to his word, Landseer put the  
finishing touch to his canvas and dis-  
patched it to Pall Mall that very eve-  
ning, and as "The Cavalier's Pets" it  
was one of the greatest successes of  
the exhibition.

SUIT FOR LIBEL

Mahlum Commences Suit in the District Court Against Hugo Schwartzkopf

YES LIBELOUS WORDS USED

In a Petition and a Pamphlet Referring to the Water and Light Board

Mr. Mahlum has commenced suit in the district court for \$20,000 against Hugo Schwartzkopf, claiming that certain libelous words were used by Schwartzkopf in a petition and pamphlet referring to the water and light board.

The complaint recites that at all times after stated and for more than five years prior hereto Mr. Mahlum has been, together with his family, a resident of the city of Brainerd and has during all said time been a member of the water and light board.

That the charter of the city provides that the city shall audit, examine and approve accounts of all the city officers and agents of the city at such times as they may deem proper, and that the city council may remove officers who may be guilty of neglect of duty.

On or about December 5, 1911, Schwartzkopf, it is alleged, in order to satisfy his personal spite against certain members of the water and light board and against Mr. Mahlum, caused a certain petition in writing among other things that the city council proceed under the charter for an investigation and for the books of the water and light board to determine among other things if the management of the water and light board was honest, efficient, or dishonest, and inefficient.

Among other things it is alleged the petition contained the following false and defamatory words: "The water and light board are purchasing machinery and supplies and therefore an exorbitant price, an agreement which makes it impossible for any supply company to do business with the city, and that result of this arrangement the city is paying from 25 to 40 per cent more for equipment than is necessary."

Mr. Mahlum claims these words are wholly false and untrue. On or about April 7, 1912, it is alleged Mr. Schwartzkopf maliciously caused to be printed, published and circulated throughout Brainerd, in booklet or pamphlet which contained the following words: "In order of buying supplies and paying them to the public we can think that would indicate that the city as a body have committed some wrong, or perpetrated an injustice upon the public. We find that the supplies bought at practically the same price all over the country."

The secretary of the board is the acting agent of the board and so he is concerned we are satisfied that the purchases have been made in good faith and at the lowest price that could be had. As to any claim that may have been paid by the individual members of the board, we have nothing to say, but if the council should act upon the request made later on in this report, we have some evidence to like to produce bearing on the subject."

That portion of said words which was in said booklet last above recited: "as to any rebates which have been paid by these supplies to the individual members of the board we have nothing to say, but if the council should act upon the request made later on in this report, we have some evidence to like to produce bearing on the subject."

These words Mr. Mahlum has suffered in his reputation to his damage, \$10,000.

That Mr. Mahlum has suffered a further damage of \$10,000 to his reputation by the publication in the pamphlet of these words: "The water and light board are at present paying \$45 per month for their quarters in the Imperial block. At the time the water and light board were contemplating a removal of their office James Gardner, of this city, offered to rent the water and light board a store 24x70, with basement, in his brick building on Sixth street south, opposite the postoffice building, for the sum of \$20, less than half of what the water and light board is now paying for their present quarters. It is for you to determine whether the selection of the present quarters was made in the interests of the public, or whether there is incompetence or corruption connected with the present quarters of the water and light board. Especially is this true in view of the fact that at this time the board was contemplating the removal of their offices they were offered a room across the street from where they are at present located by J. W. Koop, at the price of \$20 per month; and the same building that is today rented by them at \$45 per month was offered to other parties at the same time at the price of \$30 per month."

The case goes on the calendar and will presumably be heard at the December term of court.

BACK FROM STATE FAIR

J. A. Wilson, in Charge of County Exhibit, says Exhibit Attracted Favorable Comment

J. A. Wilson, in charge of the Crow Wing county exhibit at the state fair, returned home this afternoon, tired but happy. The Crow Wing county booth was filled with visitors every day, many of whom were interested in Crow Wing county or who had at one time lived in Brainerd. Literature was distributed furnished by the Brainerd and Pequot Commercial clubs.

Crow Wing county won no prizes, but neither did 25 other counties. Roseau county, which won a prize, was financed \$750 by its county commissioners and \$350 by the county seat and it went to the fair the Thursday preceding the fair week with five men to set up and arrange and keep in shape the exhibit.

However Crow Wing county has made a beginning and as such it received any amount of favorable comment. People were glad of the enterprise shown by this county in arranging an exhibit and assisting to make the state fair a success.

On leaving, Mr. Wilson, according to instructions received, gave the exhibit to Secretary Mackenzie of the Northern Minnesota Development association, who will arrange it and display it in the rooms of the association in Minneapolis. In Monday's Dispatch Mr. Wilson will write his impressions and experiences of the state fair.

Purdy-Raven

The marriage of Dr. Mervin B. Purdy and Miss Elsie Raven was solemnized this morning at 10:30 at the manse of the Presbyterian church, Rev. W. J. Lowrie reading the ceremony.

The groom was dressed in conventional black and the bride in a blue traveling costume. They were accompanied by Leslie Purdy, who acted as the best man, and Miss Rhea L. Raven, sister of the bride.

Mr. Purdy is a son of Archie Purdy the popular 5th ward alderman. He recently graduated from the college of veterinary surgery of Kansas City and is now practicing his profession here. The bride is one of the most popular young ladies of Perham.

They will take a short trip to the Twin Cities and then make their home here.

Congratulations are being showered upon them by friends and acquaintances who all unite in wishing them the best there is in life, a wish in which The Dispatch heartily joins.

## STREET DUST DANGERS.

Flying Particles Cause Many Diseases of the Respiratory Organs.

In a recent article published in Hygiene Dr. Rasser draws attention to the considerable danger connected with street dust, the action of which on the human organs of respiration is responsible to a great extent for the origin of tuberculosis and similar diseases of the lungs and windpipe. But apart from this kind of trouble dangerous chronic inflammations of the eye should be put down to the action of street dust. In fact, an increase in the frequency of catarrhs has been observed with continued dry weather and a reduction on the occurrence of the first rain.

Under these conditions road engineering, apart from its technical task, has primarily to fulfill a sanitary task. As the production of dust depends on the fixing of roads, a pavement complying with all hygienical requirements should be looked for. Asphalted streets would seem to comply with most of these conditions, provided there be an extensive and thorough removal of waste matter, followed by an abundant sprinkling of the road surface. Caoutchouc pavement, as used with special satisfactory results in London, would seem to be most desirable. Dr. Rasser does not seem to think very highly of the sprinkling of roads with chemicals, such as salts and tar. An ideal means of laying street dust which has been suggested of late years is sprinkling with a solution of sulphite pitch in water, which would seem to avoid any dust for at least six weeks. Sulphite pitch is obtained as a byproduct in manufacturing cellulose.

## The Turk.

The Turk practices no trade, engages in no commerce. They have a proverb which says, "The Frank has science, the American commerce, the Osmani majesty." But, as majesty won't fill stomachs, those who do not serve as soldiers strive to become functionaries, and the men of the small villages, falling in this, do nothing, and the work of the fields and house falls upon the shoulders of the women. One chronicler states that occasionally the man of the house crochets a stocking or mends the baby for a short period.

## Artemus Ward's Account.

An Ohio man who attended the dedication of a monument recalled Artemus Ward's account of one of these ceremonies: "It was a fine parade, a very fine parade. The marching column was fully a mile and three-quarters long—as was the prayer of Dr. Chaplain, the chaplain."

## He Got Her.

"Oh," she said, "your conduct is enough to make an angel weep." "I don't see you shedding a tear," he retorted, and his ready wit saved the day.

Evil spreads as necessarily as disease.—Ellot.

Not Right at All.  
"Have you anything to say before sentence is pronounced against you?" asked the judge.

"The only thing I'm objecting to," answered the convicted burglar, "is being identified by a man that kept his head under the bedclothes the whole time. That's not right at all."

## Worse Still.

Bangs—How did old Heavyside treat you when you asked him for his daughter? Acted like a pirate, didn't he? Butts—Pirate? He acted like a freebooter!—Judge.

## Plain Speaking.

"Why, it's as plain as the nose on your face."  
"Well, anyhow, it ain't as plain as the face behind your nose."—London Tatler.

Slander is the revenge of a coward, and dissimulation his defense.

## GO TO THE RESCUE

Don't Wait 'till it's Too Late—Follow the Example of a

Brainerd Citizen

Rescue the aching back.

If it keeps on aching, trouble may come.

Often it indicates kidney weakness.

If you neglect the kidneys' warning.

Look out for urinary disorders.

This Brainerd citizen will show you how to go to the rescue.

Mrs. John L. Nelson, 309 Quince St., Brainerd, Minn., says: "About two years ago we used Doan's Kidney Pills, procured at a local drug store, and found them so effective that we publicly endorsed them. They brought relief from pains in the back and head and other distressing symptoms of kidney complaint. The lapse of time has only served to increase our high opinion of Doan's Kidney Pills."

## Foreign Experts Praise Northwestern Plant

Model Brewery of America, Located in the Great Golden Grain Belt, Where Best Barley on Earth is Grown.

THE GREAT NORTHWEST has come into its own, not only its large crops of the present year, but in one of the big results of the work of the farmers of this section.

It is a known fact that good beer can only be made with barley. Fair beer that will pass in some families, is made with other grains, but for the real malt product, such as physicians recommend, the best of barley must be used for making the malt. Nor does extra fine beer-making depend upon foreign hops, for right in the great far northwest are grown the finest hops for many purposes in the

world, especially for medicine where tonics are needed.

It was natural, therefore, that by the help of the farmers, it should come to pass that the northwest should become famous for an exceptional quality and flavor of old aged beer, and that credit has been given to Golden Grain Belt Beers by no less critics than experts from the home of beer, the lands of Germany and Austria.

While much of this was due to the superior quality of the barley for which northwestern farmers secured and do secure, prices far in advance of wheat, it was necessary to perfect

a model brewery in order to give a fair test to the home grown barley of the Golden Grain Belt. That test has been made, and the result is a widening demand for the Golden Grain Belt Beers, made from the products of the northwestern fields. And so great is the increase that the Minneapolis Brewing company asks the farmers of the northwest to grow more barley in order that there may be a plentiful supply. Many farmers are taking advantage of the help of the state farms and are selecting the finer varieties in order that they may get still more fancy prices than they have been securing. The foxy farmer, these days, is the one who turns his fancy away from wheat as an entire crop, and puts in a goodly acreage of barley. He sees the difference in the steady high price of the brewer's grain.

The Minneapolis Brewing Company has done more than its share in creating these high prices for northwestern

barley. Many American brewers have made fun of its management because of the lavish way in which it has equipped the brewery at Minneapolis with every modern fanciful device for the making of pure aged beer. You must remember that there is a vast difference in beer. Old beer, properly lagered, is an assistant to health and digestion. Cheap, newly made beer is just the opposite and will give heartburn and sour stomach because it ferments in the stomach. Aged beer costs more to make because there must be immense storage capacity, perfectly sterile, and cooled to a fraction of a degree for months. Cheap, newly made beer can be made one day and shipped to the customer in a day or two after the "sparkle" having been artificially given. That is why it can be sold cheap, although often it is sold for the same price as aged beer.

So keenly did the brewmaster of the Minneapolis Brewing company

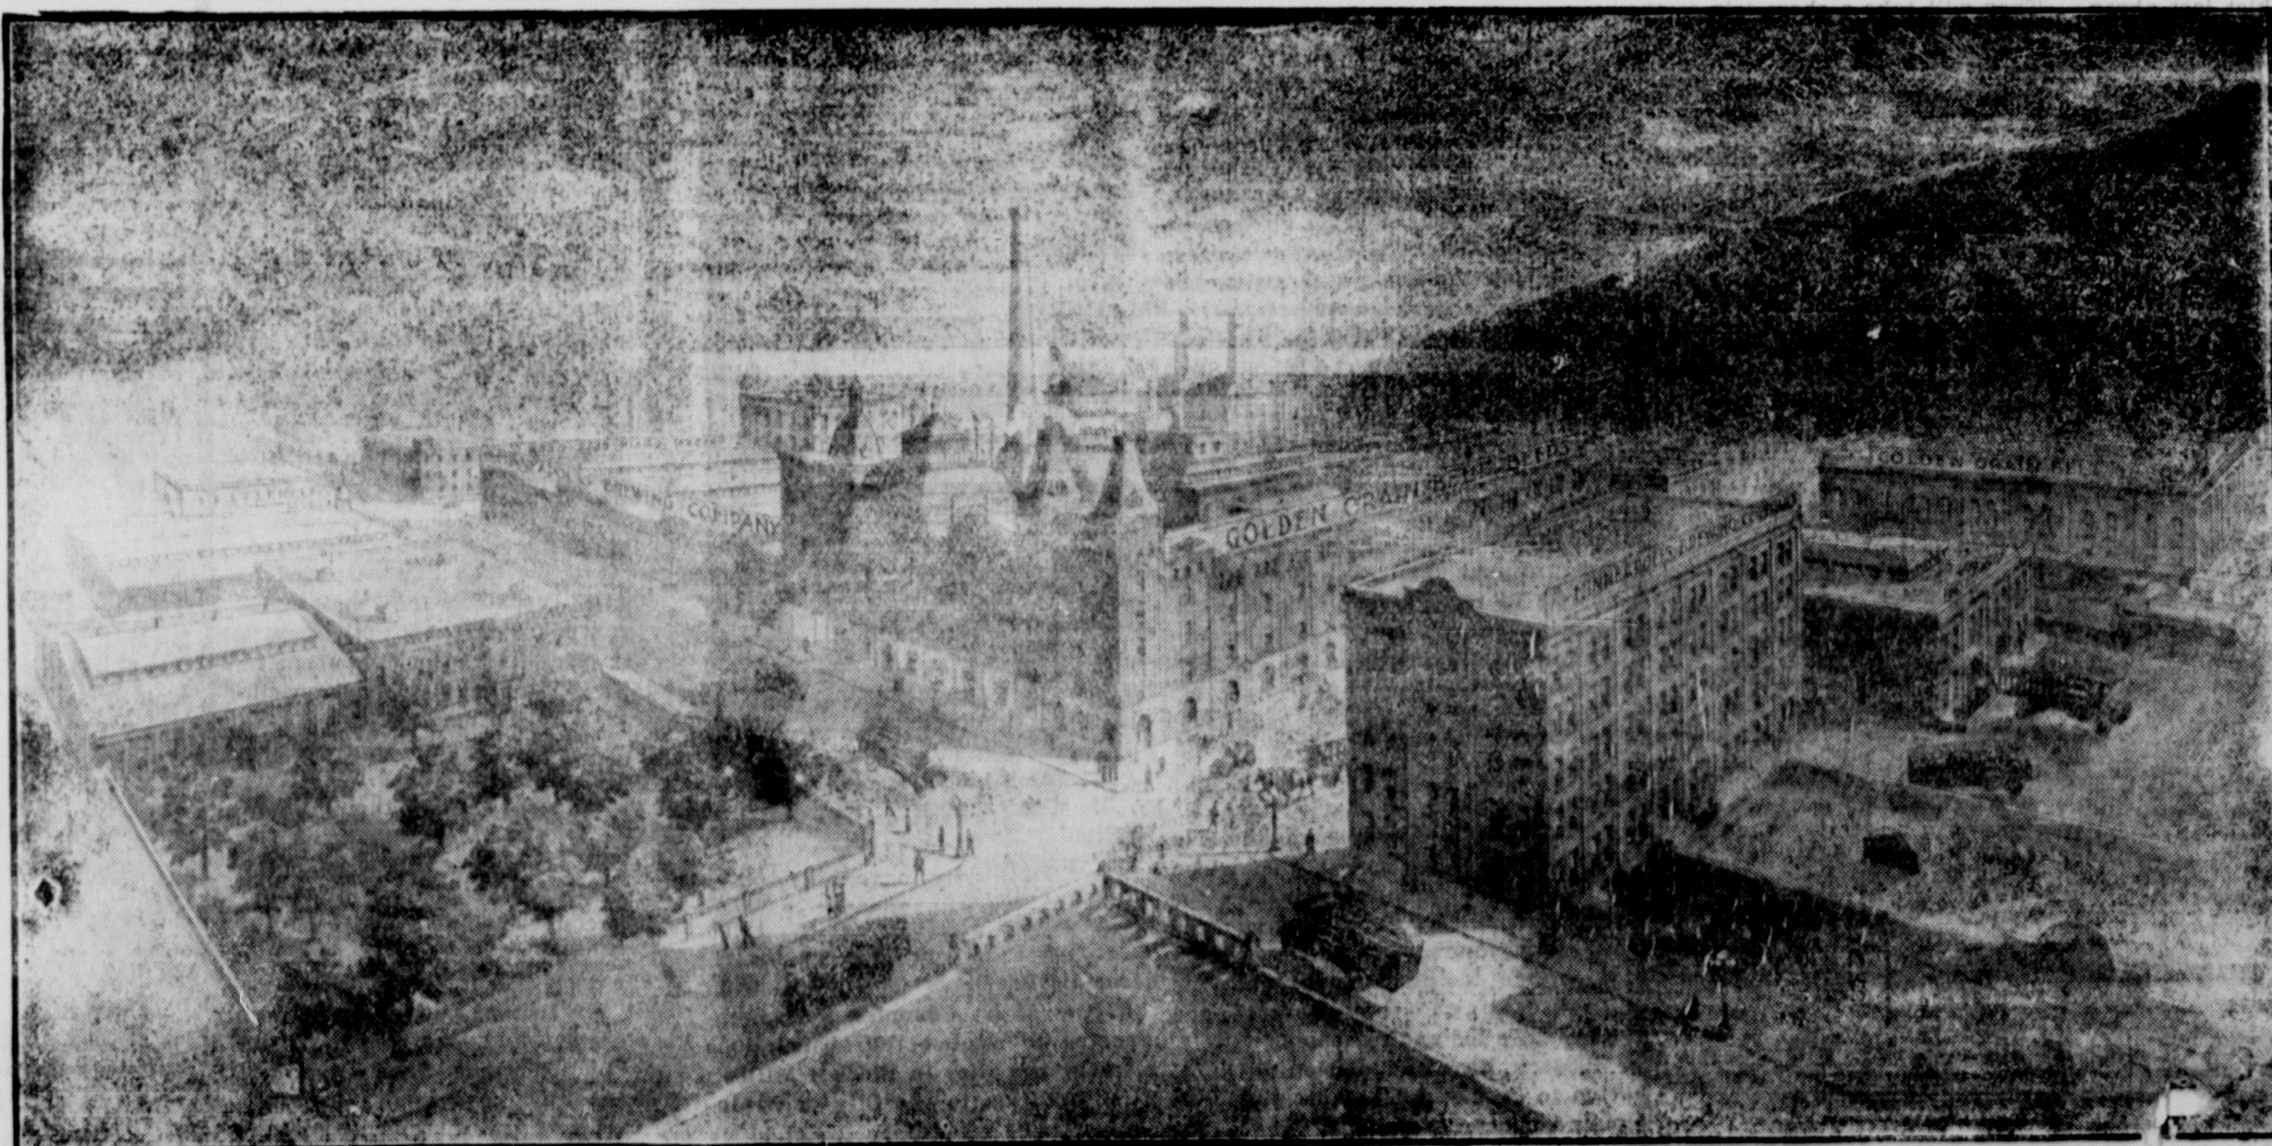

watch the growth of brewing that, of late, Golden Grain Belt Beers have been given a place of honor among beers of the world. Foreign brewers, journeying through America, carried home with them, praises of the brewery where Golden Grain Belt Beers are brewed, as a model plant, worth studying in perfecting their own breweries. Furthermore, these experts gave handsome praise by stating that the Golden Grain Belt Beers were the best they had tasted in the west.

At this Minneapolis brewery, where all Golden Grain Belt Beers are bottled, there is one of the few government tanks of the country, so that the beer is bottled direct from a sealed tank instead of being drawn from barrels. This gives a purer product and admits of greater age and hence better medicinal properties. Is it any wonder that every one connected with the Minneapolis Brewing Company are proud of their beer, and well-

come strangers to visit their brewery at any and all times?

When you come to Minneapolis don't fail to visit the great model brewery of the Minneapolis Brewing Company where Golden Grain Belt Beers are brewed and aged. Guide will take you on the half-hour trip which you will say, when completed was one of the most interesting of your lifetime. You will not be short of the very largest brewery in the world but you will see one that is noted being one of the most perfect. T. Hatch string is out, and any time you are in Minneapolis you are welcome.

You must come prepared to enjoy a fine trip. Courteous guides will plain every point, and you will see why Dr. P. M. Hall, noted health commissioner, stated that the only milk could be made safe to use, would be by adopting the kind of method used in this great brewery.

## STREET DUST DANGERS.

Flying Particles Cause Many Diseases of the Respiratory Organs.

In a recent article published in Hygiene Dr. Rasser draws attention to the considerable danger connected with street dust, the action of which on the human organs of respiration is responsible to a great extent for the origin of tuberculosis and similar diseases of the lungs and windpipe. But apart from this kind of trouble dangerous chronic inflammations of the eye should be put down to the action of street dust. In fact, an increase in the frequency of catarrhs has been observed with continued dry weather and a reduction on the occurrence of the first rain.

Under these conditions road engineering, apart from its technical task, has primarily to fulfill a sanitary task. As the production of dust depends on the fixing of roads, a pavement complying with all hygienic requirements should be looked for. Asphalted streets would seem to comply with most of these conditions, provided there be an extensive and thorough removal of waste matter, followed by an abundant sprinkling of the road surface. Caoutchouc pavement, as used with especial satisfactory results in London, would seem to be most desirable. Dr. Rasser does not seem to think very highly of the sprinkling of roads with chemicals, such as salts and tar. An ideal means of laying street dust which has been suggested of late years is sprinkling with a solution of sulphite pitch in water, which would seem to avoid any dust for at least six weeks. Sulphite pitch is obtained as a byproduct in manufacturing cellulose.

## The Turk.

The Turk practices no trade, engages in no commerce. They have a proverb which says, "The Frank has science, the American commerce, the Ottoman majesty." But, as majesty won't fill stomachs, those who do not serve as soldiers strive to become functionaries, and the men of the small villages, failing in this, do nothing, and the work of the fields and house falls upon the shoulders of the women. One chronicler states that occasionally the man of the house crochets a stocking or mends the baby for a short period.

## Artemus Ward's Account.
